## PROJECTS

### Online Resume Builder

**Live Preview:** <https://resume-builder-pi.vercel.app/>

**Summary:** A fully featured Resume Builder built with React, Redux, and CSS. This web application allows users to easily create and customize resumes with a user-friendly interface. Users can input their personal information and more to create a resume. The app also includes a live preview feature, so users can see the changes as they build it.

### E-Commerce Website

**Live Preview:** <https://shoppingo-nine.vercel.app/>

**Summary:** An e-commerce web application built with React, Redux, and CSS. This fully functional e-commerce platform allows users to browse view product details, add items to their cart, and add items to their Wishlist. The application features a clean and responsive layout optimized for both desktop and mobile devices.

### My Own Portfolio

**Live Preview:** <https://web-koder.vercel.app>

**Summary:** My own personal portfolio website built with React, Redux, and CSS. This website serves as an online platform for me to showcase my skills, experience, and projects. The website features a clean, modern design and is optimized for both desktop and mobile devices. It includes sections for my personal introduction, education, skills, and projects with the ability to showcase images and live preview of my work.
